The Project LIFE AskREACH (No. LIFE16 GIE/DE/000738)
is funded by the LIFE Programme of the European Union

AskREACH Supplier platform

1

Logging in

-> Connect to the platform

Select “**Register**” at the bottom of the screen

Enter your information and follow the instructions

2

Create your company profile

-> In the “**Profile**” tab

Insert the **name of your company** and/or your brand(s)

Insert generic **e-mail address** to receive the consumer requests

Are you a (GSI) barcode owner? Indicate your **Global Company Prefixes (GSP)**

3

Upload your articles

-> Three possibilities :

- Your articles and packaging do not contain SVHC > 0,1%: click on the "barcode range declaration “**Barcode Range Declaration**” tab to declare the information
- You prefer to add articles one by one: go to the “**Article declaration**” tab and click “**Add article**”
- You prefer to upload multiple articles at one go: click on “**More**”, then “**Import**” and upload your pre-filled AskREACH import excel file

4

Congratulations, your company is now a part of the Scan4Chem and AskREACH community!

Our team will verify that your registration went well and contact you to confirm that you are the source of the data entry. After the verification, the data you have entered will be accessible to the users of the Scan4Chem app.
